Children's National®

Neurofibromatosis Family Day 2024 Saturday, September 21st 9 a.m. - 1 p.m.

The Gilbert Institute for Neurofibromatosis, with the support of the Children's Tumor Foundation, is hosting our annual family day to support children with neurofibromatosis type 1 (NF1) and their families. This event will provide the opportunity to interact with clinicians and researchers who work with children with NF.

Experts will discuss relevant topics including:

- Patient Engagement in Research
- Basics of ADHD
- Cognition in NF1
- Neurofibromas
- Pain and NF1

Also at the event we will have:

- Breakout sessions for teens affected by NF1
- Activity room for younger children

Location:

Children's National, 2nd Floor Auditorium
111 Michigan Ave. NW, Washington, DC 20010

For those who cannot attend in person, presentations will be recorded and posted to childrensnational.org after the event.
